

Bring The Sun Home

XS Series

Single-MPPT, Single-Phase

- A4 size
- Light weight
- 30% DC oversizing
- 97% Europe efficiency
- LAN/WIFI communication

The brand new XS model of GoodWe is an ultra-small residential solar inverter specifically designed to bring comfort and quiet operation as well as high efficiency to households. Its capacity ranges from 0.7kW to 3.0kW and its most outstanding characteristic is light weight, which is only 5.8kg and as well as its extremely small size equivalent to an A4 paper, that make it particularly easy to carry & install. Remarkably, it offers a 30% of DC input oversizing and it's able to achieve a maximum Europe efficiency of 97%. Conveniently, the communications options available on this inverter are both LAN & Wifi.
